ABOUT

Front End Developer with 1 year of experience in product development, also experienced in backend development with Node.js. Vim evangelist. Run a technical blog. Hardworking, self-motivated, and eager to learn. Read a lot of professional literature, constantly improving skills as a professional, and ready to take on and carry responsibility.

SKILLS

- **Primary:** TypeScript, React, Redux Toolkit, React Router, Tailwind CSS, SCSS, FSD
- **Secondary:** Node.js, Express, PostgreSQL, MVC, Docker, NGINX

EXPERIENCE

- **Center of Financial Technologies** Novosibirsk, Russia
Front End Developer *April 2025 – Present*
 - **Stack:** TypeScript, React, Wouter, Redux Toolkit, CSS.
- **Tasty Franchise** Novosibirsk, Russia
Full Stack Developer *January 2024 – March 2025*
 - **Stack:** TypeScript, React, React Router, Redux Toolkit, Tailwind CSS, Express, PostgreSQL, Docker, NGINX.
 - **Contribution:** Designed and implemented an internal company product for automating restaurant inspections to ensure compliance with quality standards. As part of the project, developed an authorization system with a role-based user model, an administrative panel, an interface for administrators to create and edit checklists, as well as a form for inspectors to complete checklists during inspections. Automated the process of generating reports, significantly simplifying data collection and analysis. Maintained and enhanced existing company projects, ensuring their stable operation and improved functionality.
 - **Result:** As a result of the product implementation, the company reduced time and financial costs associated with inspections by transitioning from paper-based to digital formats. Transparency and quality of control improved, contributing to higher standards of operation across the franchise's restaurants.

EDUCATION

- **RANEPA** Novosibirsk, Russia
Bachelor of Law *September 2020 – July 2024*
